INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/AU2004/000846

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	YES
	Claims 1-48	NO
Inventive step (IS)	Claims	YES
	Claims 1-48	NO
Industrial applicability (IA)	Claims 1-48	YES
	Claims	NO

2. Citations and explanations (Rule 70.7)

D1: WO 02/25604 A1

The invention defined by **claims 1, 20, 35, 39 and 43** is not novel or inventive in light of citation **D1**. The citation discloses a method in which a merchant is provided with an entity having a unifying interface to one or more electronic wallets, wherein the entity communicates with both the one or more electronic wallets and the merchant; and collects information from the one or more electronic wallets and payment transaction details from the merchant and processes the transaction in a financial institution (see abstract). In the arrangement of the citation the electronic wallet is the equivalent of the financial institution application in the arrangement of the application.

Furthermore, appended **claims 2-19, 21-34, 36-38, 40-42 and 44-48** relate to either parameters or structures that are merely matters of design choice or relate only to features that are typical in devices of this type and therefore they cannot be considered as contributing to patentable ingenuity.

Therefore citation **D1** renders claims 1-48, both not novel and not inventive.
